Chiffres Fondus Addition et Soustraction (G)

Nom: _____ Date: _____

Retrouve les chiffres qui ont fondu à la chaleur du soleil.

1. $\square\square5 - 272 = 28\square$

2. $1\square\square + \square67 = 846$

3. $6\square1 - 138 = \square4\square$

4. $\square\square\square - 570 = 226$

5. $690 + 4\square\square = \square\square91$

6. $292 + 4\square6 = \square0\square$

7. $891 - 4\square9 = \square9\square$

8. $\square35 + 2\square\square = 484$

9. $\square01\square - \square\square6 = 595$

10. $234 + \square\square\square = \square20$

11. $79\square + \square60 = \square1\square0$

12. $49\square + 68 = \square\square2$

13. $245 + 99 = \square\square\square$

14. $\square018 - 32\square = \square\square5$

15. $\square\square67 - 6\square5 = 44\square$

16. $\square53\square - 997 = \square\square6$

17. $612 - 59 = \square\square\square$

18. $\square3\square - 4\square1 = 250$

19. $70 + 6\square\square = \square06$

20. $7\square0 + \square29 = \square69\square$
