

Graphique d'Équations Linéaires (I)

Résolvez ce graphique à l'aide d'un système d'équations.

$$y = \left(\frac{3}{8}\right)x - 6$$

$$y = \left(\frac{4}{3}\right)x + 9$$

$$y = \left(\frac{8}{3}\right)x + 2$$

$$y = \left(-\frac{3}{5}\right)x - 1$$
