

## Relations Inverses Mult/Div (B)

Instructions: Utilisez l'information donnée pour remplir chaque case.

$$\begin{array}{l} \text{puisque } 4 \times 8 = 32 \\ \text{alors } 32 \div 4 = \boxed{\phantom{00}} \end{array}$$

$$\begin{array}{l} \text{puisque } 5 \times 6 = 30 \\ \text{alors } 30 \div 5 = \boxed{\phantom{00}} \end{array}$$

$$\begin{array}{l} \text{puisque } 1 \times 4 = 4 \\ \text{alors } 4 \div 1 = \boxed{\phantom{00}} \end{array}$$

$$\begin{array}{l} \text{puisque } 7 \times 5 = 35 \\ \text{alors } 35 \div 7 = \boxed{\phantom{00}} \end{array}$$

$$\begin{array}{l} \text{puisque } 4 \times 7 = 28 \\ \text{alors } 28 \div 4 = \boxed{\phantom{00}} \end{array}$$

$$\begin{array}{l} \text{puisque } 7 \times 5 = 35 \\ \text{alors } 35 \div 7 = \boxed{\phantom{00}} \end{array}$$

$$\begin{array}{l} \text{puisque } 9 \times 5 = 45 \\ \text{alors } 45 \div 9 = \boxed{\phantom{00}} \end{array}$$

$$\begin{array}{l} \text{puisque } 3 \times 1 = 3 \\ \text{alors } 3 \div 3 = \boxed{\phantom{00}} \end{array}$$

$$\begin{array}{l} \text{puisque } 4 \times 7 = 28 \\ \text{alors } 28 \div 4 = \boxed{\phantom{00}} \end{array}$$

$$\begin{array}{l} \text{puisque } 6 \times 1 = 6 \\ \text{alors } 6 \div 6 = \boxed{\phantom{00}} \end{array}$$

$$\begin{array}{l} \text{puisque } 2 \times 8 = 16 \\ \text{alors } 16 \div 2 = \boxed{\phantom{00}} \end{array}$$

$$\begin{array}{l} \text{puisque } 7 \times 6 = 42 \\ \text{alors } 42 \div 7 = \boxed{\phantom{00}} \end{array}$$

$$\begin{array}{l} \text{puisque } 2 \times 2 = 4 \\ \text{alors } 4 \div 2 = \boxed{\phantom{00}} \end{array}$$

$$\begin{array}{l} \text{puisque } 5 \times 5 = 25 \\ \text{alors } 25 \div 5 = \boxed{\phantom{00}} \end{array}$$

$$\begin{array}{l} \text{puisque } 6 \times 9 = 54 \\ \text{alors } 54 \div 6 = \boxed{\phantom{00}} \end{array}$$

$$\begin{array}{l} \text{puisque } 8 \times 1 = 8 \\ \text{alors } 8 \div 8 = \boxed{\phantom{00}} \end{array}$$
