

## Nombres Décimaux (J)

Calculez le quotient de chaque division qui suit.

$$7.02 \overline{)572.4810}$$

$$1.76 \overline{)143.4576}$$

$$5.18 \overline{)419.4764}$$

$$1.12 \overline{)106.5456}$$

$$9.27 \overline{)535.4352}$$

$$3.13 \overline{)176.7511}$$

## Nombres Décimaux (J) Solutions

Calculez le quotient de chaque division qui suit.

$$\begin{array}{r} 81.5500 \\ 7.02 \overline{)572.4810} \end{array}$$

$$\begin{array}{r} 81.5100 \\ 1.76 \overline{)143.4576} \end{array}$$

$$\begin{array}{r} 80.9800 \\ 5.18 \overline{)419.4764} \end{array}$$

$$\begin{array}{r} 95.1300 \\ 1.12 \overline{)106.5456} \end{array}$$

$$\begin{array}{r} 57.7600 \\ 9.27 \overline{)535.4352} \end{array}$$

$$\begin{array}{r} 56.4700 \\ 3.13 \overline{)176.7511} \end{array}$$
