

Comparaison de Fractions (I)

Utilisez les symboles $<$, $>$ ou $=$ pour comparer chaque paire de fractions.

$$6\frac{2}{3} \quad \square \quad \frac{2}{6} \qquad \frac{3}{4} \quad \square \quad 7\frac{3}{4} \qquad \frac{13}{3} \quad \square \quad \frac{7}{3} \qquad \frac{1}{3} \quad \square \quad \frac{19}{4}$$

$$4\frac{4}{6} \quad \square \quad \frac{2}{4} \qquad \frac{1}{4} \quad \square \quad 1\frac{1}{3} \qquad 2\frac{3}{4} \quad \square \quad 4\frac{1}{6} \qquad \frac{1}{2} \quad \square \quad \frac{1}{2}$$

$$\frac{11}{3} \quad \square \quad \frac{12}{6} \qquad \frac{8}{3} \quad \square \quad \frac{1}{2} \qquad \frac{3}{4} \quad \square \quad 16\frac{1}{2} \qquad \frac{30}{3} \quad \square \quad \frac{6}{4}$$

$$\frac{2}{4} \quad \square \quad \frac{2}{3} \qquad \frac{1}{4} \quad \square \quad \frac{5}{6} \qquad \frac{9}{4} \quad \square \quad 7\frac{1}{4} \qquad \frac{12}{6} \quad \square \quad \frac{1}{3}$$

$$3\frac{4}{5} \quad \square \quad 2\frac{3}{5} \qquad \frac{2}{3} \quad \square \quad \frac{1}{2} \qquad 4\frac{3}{6} \quad \square \quad \frac{13}{3} \qquad \frac{1}{6} \quad \square \quad \frac{3}{4}$$

$$\frac{18}{2} \quad \square \quad 5\frac{3}{5} \qquad \frac{5}{5} \quad \square \quad \frac{12}{2} \qquad 3\frac{2}{4} \quad \square \quad \frac{25}{5} \qquad 1\frac{4}{5} \quad \square \quad \frac{1}{3}$$

$$\frac{5}{2} \quad \square \quad \frac{2}{6} \qquad 2\frac{5}{6} \quad \square \quad \frac{4}{5} \qquad \frac{13}{4} \quad \square \quad \frac{1}{2} \qquad 5\frac{3}{4} \quad \square \quad \frac{4}{5}$$

$$\frac{1}{3} \quad \square \quad 3\frac{1}{3} \qquad 8\frac{3}{4} \quad \square \quad \frac{8}{3} \qquad 7\frac{2}{4} \quad \square \quad 6\frac{3}{4} \qquad 3\frac{1}{3} \quad \square \quad 9\frac{1}{2}$$

$$3\frac{1}{4} \quad \square \quad \frac{3}{6} \qquad \frac{2}{6} \quad \square \quad 5\frac{2}{4} \qquad 1\frac{1}{6} \quad \square \quad 3\frac{1}{3} \qquad \frac{18}{3} \quad \square \quad \frac{1}{5}$$

$$\frac{9}{2} \quad \square \quad \frac{25}{6} \qquad \frac{3}{4} \quad \square \quad \frac{23}{2} \qquad 3\frac{1}{4} \quad \square \quad \frac{11}{2} \qquad 1\frac{1}{6} \quad \square \quad \frac{21}{5}$$
