

Multiplication de Fractions (J)

Nom: _____

Date: _____

Score: ____ /10

Multipliez les fractions, simplifiez le résultat, et convertissez-le en nombres mixtes.

1. $5\frac{8}{9} \times 5\frac{1}{2} \times 4\frac{1}{2} = \underline{\quad} = \underline{\quad} = \underline{\quad}$

2. $1\frac{2}{3} \times 2\frac{4}{5} \times 1\frac{6}{7} = \underline{\quad} = \underline{\quad} = \underline{\quad}$

3. $1\frac{1}{5} \times 3\frac{5}{9} \times 3\frac{1}{6} = \underline{\quad} = \underline{\quad} = \underline{\quad}$

4. $1\frac{4}{7} \times 5\frac{1}{6} \times 4\frac{1}{8} = \underline{\quad} = \underline{\quad} = \underline{\quad}$

5. $5\frac{1}{2} \times 3\frac{1}{7} \times 3\frac{1}{4} = \underline{\quad} = \underline{\quad} = \underline{\quad}$

6. $5\frac{4}{9} \times 1\frac{4}{5} \times 3\frac{2}{5} = \underline{\quad} = \underline{\quad} = \underline{\quad}$

7. $1\frac{5}{6} \times 3\frac{7}{9} \times 5\frac{2}{5} = \underline{\quad} = \underline{\quad} = \underline{\quad}$

8. $1\frac{1}{5} \times 5\frac{1}{2} \times 4\frac{2}{5} = \underline{\quad} = \underline{\quad} = \underline{\quad}$

9. $3\frac{5}{8} \times 2\frac{4}{7} \times 1\frac{3}{8} = \underline{\quad} = \underline{\quad} = \underline{\quad}$

10. $2\frac{5}{8} \times 3\frac{5}{9} \times 1\frac{4}{9} = \underline{\quad} = \underline{\quad} = \underline{\quad}$
