

Multiplication de Doubles (F)

Trouvez chaque produit.

$11 \times 11 = \underline{\hspace{2cm}}$

$10 \times 10 = \underline{\hspace{2cm}}$

$8 \times 8 = \underline{\hspace{2cm}}$

$8 \times 8 = \underline{\hspace{2cm}}$

$10 \times 10 = \underline{\hspace{2cm}}$

$15 \times 15 = \underline{\hspace{2cm}}$

$7 \times 7 = \underline{\hspace{2cm}}$

$1 \times 1 = \underline{\hspace{2cm}}$

$3 \times 3 = \underline{\hspace{2cm}}$

$5 \times 5 = \underline{\hspace{2cm}}$

$4 \times 4 = \underline{\hspace{2cm}}$

$13 \times 13 = \underline{\hspace{2cm}}$

$2 \times 2 = \underline{\hspace{2cm}}$

$6 \times 6 = \underline{\hspace{2cm}}$

$6 \times 6 = \underline{\hspace{2cm}}$

$2 \times 2 = \underline{\hspace{2cm}}$

$9 \times 9 = \underline{\hspace{2cm}}$

$3 \times 3 = \underline{\hspace{2cm}}$

$13 \times 13 = \underline{\hspace{2cm}}$

$11 \times 11 = \underline{\hspace{2cm}}$

$5 \times 5 = \underline{\hspace{2cm}}$

$12 \times 12 = \underline{\hspace{2cm}}$

$15 \times 15 = \underline{\hspace{2cm}}$

$7 \times 7 = \underline{\hspace{2cm}}$

$1 \times 1 = \underline{\hspace{2cm}}$

$14 \times 14 = \underline{\hspace{2cm}}$

$12 \times 12 = \underline{\hspace{2cm}}$

$4 \times 4 = \underline{\hspace{2cm}}$

$14 \times 14 = \underline{\hspace{2cm}}$

$9 \times 9 = \underline{\hspace{2cm}}$
