Les chiffres manquants de Cupidon Addition et Soustraction (D)

Nom: _____ Date: _____ Note: _____

Remplissez tous les chiffres que Cupidon a frappé pendant qu'il s'entraînait.

1. $80\square - \square\square 0 = 441$

2. $\square 1\square - 98 = 6\square 1$

3. $\square 49 + 90\square = \square 3\square 6$

4. $533 + 37\square = \square\square 6$

5. $\square\square 56 - 3\square 6 = 84\square$

6. $\square 869 - \square 88 = 9\square\square$

7. $\square\square\square 4 - 84\square = 290$

8. $3\square\square + 437 = \square 87$

9. $\square\square 2 + 956 = \square 73\square$

10. $969 - \square 50 = 1\square\square$

11. $5\square 3 + \square 0\square = \square 459$

12. $\square\square 63 - 8\square 8 = 57\square$

13. $\square\square\square + 206 = 545$

14. $\square\square 3 - 10\square = 399$

15. $\square 25 + \square 6 = 65\square$

16. $\square 8\square + 913 = \square 4\square 2$

17. $69\square - \square 88 = 2\square 5$

18. $4\square 7 + \square 16 = 74\square$

19. $74\square + \square 42 = \square 1\square 1$

20. $\square\square 3\square - 972 = 9\square 0$
